

The most-trusted name
in credit card processing

gravity
PAYMENTS

Now Integrated to  **Acumatica**

PC Bennett integrates Gravity Payments with Acumatica, allowing your business to accept credit card payments to give your sales a big-time boost, whether transacting on-line or on-premise.

Give Your **SALES** a
BOOST

Credit Card Processing Made Simple

Small-to-medium business owners can level-the-field when competing with larger organizations and reduce the cost and headaches associated with accepting credit card payments. Gravity Payments provides live support, clear options, and patient guidance to make credit card processing simple and fair.

Top services provided by Gravity Payments:

- 24/7 Live Support. No robots or help tickets.
- Increased Protection against Risk and Fraud via tokenization.
- Latest in payment technology: Mobile, ApplePay, EMV, NFC.
- B2B & B2G, Internet eCommerce, Invoice, and Mail Order

Thoughtfully Designed to Qualify for the **Lowest Possible Transaction Fees**

PC Bennett Solutions planned the integration to deliver the biggest cost savings per transaction possible.

Payment gateway providers offer lower rates when they receive more information about the purchaser. We carefully selected data points from Acumatica to transmit through the gateway to gain enormous savings for your company. You have the benefit of Level 3 rates from USA ePay (the Gateway) as well as experiencing the excellent customer service that Gravity Payments delivers.

Add PC Bennett Solutions' integration of Gravity Payments to Acumatica to eliminate credit card processing headaches and significantly decrease your overhead.
